With this issue is distributed the current roster of the Club. While it has been carefully checked, if you notice any inaccuracy in the listing of your name, please call it to the attention of the Editor as it is the basis on which the Bulletin is mailed.

This issue of the Bulletin is being mailed with the new 2¢ St. Joseph Bureau Precancel. If you do not collect then yourself, you probably have a friend who will be interested.

A dealer, Mr. Chester King of Hastings, Mich. had a small accumulation of mostly common perfins. He has kindly donated them to the Club. They have been made up into six packets which will be sent for 2¢ postage to the first applicants. More advanced collectors are not likely to get much out of them so it is suggested that the beginners be given a chance.

Our fellow-member, Mr. VanLint is responsible for an article in Dansk Filatelistisk Tidsskrift, Feb. 1954, p. 4&5. He has another coming in a Dutch periodical.

The March issue of the Bulletin of the International Society for Japanese Philately, p. 36 to 39 has an exploratory article on the perfins of Japan. A fuller study is expected later this year.

Mr. VanOudenol reports a perfin from Northern Rhodesia.

The remaining portion of the checklist for A is sent with this issue. If you can add information to that contained in the list, you are urged to send this information to Mr. Bartleson, the sponsor for this letter.
